**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. I am against price hikes that will increase the cost of internet and telephone services. I now have fiber access, and I enjoy it at a reasonable price. Prior to this, I had only two choices of providers. In order to get the same broadband access with them, I would have to sign up for a bundle of internet, cable, and telephone services that ended up costing much more. I believe that broadband competition promotes fair pricing to consumers. I can now have faster broadband speed at a lower price even if I chose keep my cable service without bundling services. I support broadband competition, and oppose deregulation. Thank you.
